Profiles: Google Scholar | ORCID | GitHub | LinkedIn | ResearchGate | Web of Science

Education

Master of Science in Human Genetics | **Tabriz University of Medical Sciences** | Tabriz, Iran   **2018 - 2021**
GPA: 4/4
Tuition-Free Master's Degree Program
Thesis: Analysis of BCAS4/hsa-miR-185-5p/SHISA7 Competing Endogenous RNA Axis in Late-onset Alzheimer's Disease.
Supervisor: Dr. Maryam Rezazadeh

Bachelor of Science in Biology-Animal Sciences | **University of Guilan** | Rasht, Iran   **2012 – 2017**
GPA: 3.37/4
Tuition-Free Bachelor's Degree Program
Project: Genome Evolution
Mentor: Dr. Shohreh Siyam

Research Interests

- Human Genetics and Computational Genomics
- Single-Cell Multi-Omics Analysis
- Neurogenetics and Regulatory RNA Networks
- Structural Variation in Human Disease
- Mendelian Randomization and Causal Inference
- Evolutionary Perspectives on Human Disease

Research Experience

Graduate Research Assistant | Cellular and Molecular Endocrine Research Center | Tehran, Iran   **2025 - Now**
Principal Investigator: Dr. Mahdi Akbarzadeh
Primary duties:
- Performed single-nucleus multi-omics analyses to investigate cell-type-specific regulatory mechanisms in complex human diseases.

- Applied high-dimensional weighted gene co-expression network analysis (hdWGCNA) on single-cell transcriptomic data to identify disease-relevant gene modules and hub genes.
- Conducted Mendelian randomization, colocalization, and fine-mapping analyses to infer causal relationships between genetically regulated gene expression and disease susceptibility.
- Authored a narrative review on computational strategies for CNV detection and disease association, bridging methodological development and genomic medicine.

Graduate Research Assistant | **Tabriz University of Medical Sciences** | Tabriz, Iran   **2024**
Principal Investigator: Dr. Maryam Rezazadeh
Primary duties:
- Utilizing systems biology to explore the gene modules, hub genes, and regulatory networks linked with neurological conditions through RNA-sequencing transcriptome analysis and weighted gene co-expression network analysis (WGCNA).
- Variant detection and interpretation from whole-exome sequencing data with validation through Sanger sequencing.
- Assisting the principal investigator in writing and preparing manuscripts and grant proposals.
- Supervising medical, master's, and Ph.D. students.

Elite Draftee – Researcher | **Directorate of Health, Rescue and Treatment, Police Headquarter** | **2022 - 2023**
Tehran, Iran
Project:
- Conducted a research project under the Iranian National Elite Foundation program as part of an alternative to mandatory military service.
- Focused on interdisciplinary bioinformatic and experimental approaches to identify peripheral blood-based biomarkers for major depressive disorder.

Student Research Assistant | **Tabriz University of Medical Sciences** | Tabriz, Iran   **2019 - 2021**
Principal Investigator: Dr. Maryam Rezazadeh
Main Projects:
- Identification and examination of ceRNA regulatory axes in neurogenetic disorders through the reanalysis of publicly accessible microarray datasets and supplementary molecular methods.
- Assessing the expression of key genes in neurogenetic conditions using PCR, RT-PCR, and Agarose gel electrophoresis.
- Conducting systematic reviews and scoping reviews on the genetic aspects of human diseases, with an emphasis on neurogenetic conditions.

Teaching Experience

Assistant Teacher | **Tabriz University of Medical Sciences** | Tabriz, Iran   **2021**
- Taught weekly lectures on microarray data analysis.

Skills

Programming and Computational Skills:
- **R - Advanced:** statistical analysis, data visualization, and reproducible research.
- **Python - Familiar:** data analysis and scientific computing for genomics workflows.
- **Linux / Unix - Advanced:** command-line workflows and pipeline execution.
- **Bash - Familiar:** automation of data processing and analysis pipelines.
- **Git / GitHub - Familiar:** version control and collaborative development.
- **Markdown / R Markdown - Advanced:** reproducible documentation and reporting.
- **Machine Learning - Familiar:** foundational concepts and applications in data analysis.

Computational Genomics and Bioinformatics Analysis:

- **Single-Cell Multi-Omics and Spatial Data - Advanced:** preprocessing, normalization, multimodal integration, clustering, trajectory inference, network analysis, motif activity, and cell-cell communication analysis (Drop-seq pipeline, Seurat, decontX, scDblFinder, Signac, Monocle, hdWGCNA, chromVAR, and CellChat).
- **Bulk RNA-seq - Advanced:** end-to-end workflows including QC, alignment, quantification, and differential expression (FastQC, Trimmomatic, HISAT2, STAR, featureCounts, HTSeq, StringTie, Kallisto, Salmon, edgeR, DESeq2, Ballgown, Sleuth, Picard, and GATK).
- **Microarray Analysis - Proficient:** preprocessing, normalization, differential expression, and co-expression analysis (limma, affy, GEOquery, WGCNA, GEO2R, pheatmap, EnhancedVolcano).
- **Mendelian Randomization and Causal Inference - Advanced:** Two-sample and summary-data-based Mendelian randomization and fine-mapping (TwoSampleMR, SMR/HEIDI, MR-PRESSO, GCTA-COJO, coloc, SuSiE).
- **Network Biology - Proficient:** co-expression, interaction, and ceRNA regulatory networks analysis (Hmisc, psych, corrplot, bcdstats, LncBase, lncSNP2, miRTarBase, miRWalk, miRDB, ENCORI, HMDD, Cytoscape, MCODE, CytoHubba, STRING, MIST, GeneMANIA, Enrichr, FuncPred, g:profiler, and ImmPort, WGCNA, hdWGCNA).
- **Variant Analysis - Advanced:** variant calling, annotation, and interpretation (FastQC, Trimmomatic, BWA, GATK, HaplotypeCaller, ANNOVAR, ExAC, gnomAD, 1000 genomes, CADD, ClinVar, SIFT, PolyPhen, LRT, MutationTaster, FATHMM, PROVEAN, MutationAssessor, MCAP, MetaLR, Franklin, Varsome, CLC Genomics Workbench, ExomeDepth, ClinGen, and ACMG guideline).

Experimental and Molecular Biology Skills:
- **Molecular Genetics Techniques - Advanced:** DNA extraction, RNA isolation, NanoDrop spectrophotometry, agarose gel electrophoresis, cDNA synthesis, PCR, RT-PCR, and cell culture.
- **Primer Design and Reference Gene Validation - Advanced:** Primer3, Primer-BLAST, Oligo7, Gene Runner, NormFinder, and geNorm.
- **RT-PCR Data Analysis - Advanced:** relative expression analysis and visualization (R, GraphPad Prism, SPSS, and GenEx).

Other:
- **Systematic Literature Search and Evidence Synthesis - Proficient:** PubMed, Embase, Scopus, Web of Science, Cochrane, ProQuest, Google Scholar.
- **Reference Management - Advanced:** Zotero, EndNote, ResearchRabbit.
- **Scientific Visualization - Advanced:** BioRender, Mind the Graph, PowerPoint.
- **Meta-analysis - Familiar:** Comprehensive Meta-Analysis (CMA).

Conference Participation

Poster Presentation:
- **Sabaie H**, Asadi MR, Salkhordeh Z, Rezazadeh M. Investigation of competing endogenous RNA regulation of BCAS4 and SHISA7 in tau pathology in Alzheimer's disease. **The first international conference and the tenth national bioinformatics conference of Iran**, 22-24 February 2022 in Kish Island, Iran.

Workshops and Training

Comprehensive Training Program in Statistical Data Analysis, R, Python, and Machine Learning | proDlearn | Tehran, Iran (online)	**2026**
Summary-Data-Based Mendelian Randomization | GEMIRAN | Tehran, Iran (online)	**2025**
Mendelian Randomization | GEMIRAN | Tehran, Iran (online)	**2024**
R Advanced Workshop for Data Science | GEMIRAN | Tehran, Iran (online)	**2024**
R Preliminary Workshop for Data Science | GEMIRAN | Tehran, Iran (online)	**2024**
Linux Essential | Shahid Beheshti University of Medical Sciences | Tehran, Iran (online)	**2024**
Academic Writing | Hanifa Academy | Tehran, Iran (online)	**2023**
Academic Writing | Research Development & Coordination Center | Tabriz, Iran	**2020**
Programming language in R | Research Development & Coordination Center | Tabriz, Iran	**2020**
Basic Bioinformatics | Tabriz University of Medical Sciences | Tabriz, Iran	**2020**
Biostatistics | Tabriz University of Medical Sciences | Tabriz, Iran	**2020**
Ethics in Research and Publication | Research Development & Coordination Center | Tabriz, Iran	**2020**
Principles of systematic review studies and search strategy | Research Development & Coordination Center | Tabriz, Iran	**2019**

- **Research Methodology** | Tabriz University of Medical Sciences | Tabriz, Iran   **2019**
- **Proposal Writing** | Tabriz University of Medical Sciences | Tabriz, Iran   **2019**

Honors and Awards

- **Selected Researcher** | Research Week, Clinical Research Development Unit, Tabriz Valiasr Hospital   **2023**
- **Scientific Elite** | Iranian National Elite Foundation   **2022**

Science Community Service

- **Peer Reviewer for International Journals**, including:
  Scientific Reports; *Heliyon*; *PLOS ONE*; *Medicine*; *Aging*; *Annals of Human Biology*; *BMC Neurology*; *BMC Medical Genomics*; *Molecular Neurobiology*; *Molecular Medicine*; *Molecular Therapy – Nucleic Acids*; *Biomedicine & Pharmacotherapy*; *International Immunopharmacology*; *Functional & Integrative Genomics*; *Gene*; *Cell Cycle*; *Multiple Sclerosis and Related Disorders*; *Journal of Diabetes Investigation*; *Oncology Letters*; *Discover Oncology*; *Current Eye Research*; *Bioengineered*; *Iranian Journal of Allergy, Asthma and Immunology*; *Minerva Cardiology and Angiology*.

Volunteer Academic Service

- **Academic Mentorship:** Advised medical and graduate students on research design, practical implementation, and data analysis.   **2022 - Now**
- **Graduate Entrance Exam Advising:** Provided academic guidance to candidates preparing for the Iranian national entrance examination for M.Sc. programs in Human Genetics.   **2018 - 2021**

Interests and Activities

- Running
- Academic Mentoring
- Travel
- Reading in Philosophy and Science
